

Online Safety at Home

April 2022 Edition

Editor Mr Andrews, Mrs Harrop and Mrs Melliard

Think U Know

We believe all parents, carers and trusted adults should be empowered with the all the information needed to have informed and age-appropriate conversations about online safety with children. That's why, every month, we produce practical, easy to follow guides which focus on specific risks we think you need to be aware of.

The next couple of editions of the Online Safety at Home Newsletter will focus on App Awareness and give you, as parents, a greater understanding of the experiences your children may have online.

More information?

Thinkuknow is the education programme from the National Crime Agency's Child Protection Command CEOP (NCA-CEOP) whose aim is to protect children and young people from sexual abuse online.

For more information, advice and guidance, visit their [parents website](#) and download their [home activity worksheets](#) for fun, online safety activities to do with your family.

App Awareness – FIFA 21

FIFA 21

You don't need to be a football fan to have heard of the FIFA series of games (named after the Federation Internationale de Football Association: the worldwide governing body for the sport). Part of the franchise's massive appeal is that official licensing gives users the opportunity to play games as their favourite teams, controlling their favourite footballers. They either compete online against other players or work through a solo-player career mode. With updated editions launched annually, FIFA is playable on a range of consoles, with mobile versions available for smartphones and tablets. Please [click here](#) for an in-depth article explaining more about FIFA and the experiences a child may have playing it.
